

RENZEL DAVID

SOFTWARE DEVELOPER

renzel.david@gmail.com | github.com/renda28 | linkedIn.com/in/renda28

PROFESSIONAL OVERVIEW

Versatile front-end developer with over two years of expertise, proficient in HTML, CSS, JavaScript, React, Redux, TypeScript and SASS. Committed to delivering visually appealing and seamlessly functional web and mobile applications, I excel in collaborative settings, utilizing my technical skills to contribute significantly to project accomplishments. Actively seeking roles as a front-end developer to further apply and enhance my skills in innovative projects.

SKILLS

HTML	React	SCSS	Cypress
CSS	React Native	TypeScript	React Testing Library
JavaScript	Redux	Jest	Git

WORK EXPERIENCE

OrbitX | London, UK January 2023 – January 2024
Software Developer

- Worked on a mobile application that was featured on the App Store and Google Play. The app received over 10,000 downloads and positive reviews, contributing to the company's success.
- Developed and implemented captivating landing pages for a cosmetics website, resulting in enhanced user engagement and elevated overall online brand presence.

Advice Bridge | London, UK March 2020 – April 2021
Software Developer

- Collaborated with the team to develop and maintain the company's website, contributing to its functionality, user experience, and alignment with strategic business goals.
- Created and executed tests for website functionality using advanced frameworks such as Jest and Cypress. These tests led to robust and reliable test coverage that enhanced user experience.

EDUCATION

King's College London | London, UK | BSc in Computer Science(Software Engineering)(1st Class Hons) May 2018
Hammersmith & Fulham College | London, UK | Access to HE Diploma(Computing) May 2015
